SUMMARY—--

Innovative cybersecurity professional with over two years of expertise in offensive security, web penetration testing, Python automation, and data protection. Recognized contributor to global cybersecurity efforts, acknowledged in Hall of Fames for organizations like Microsoft, Apple, and NASA. Skilled in leveraging advanced technical knowledge to identify and mitigate security vulnerabilities, fostering secure and resilient digital ecosystems.

CORE COMPETENCIES—--

- Network, Mobile, and Web Penetration Testing
- Reverse Engineering & Malware Analysis
- API Security Testing & Log Analysis
- Vulnerability Assessment & Risk Mitigation
- Cyber Threat Intelligence & Data Protection

PROFESSIONAL EXPERIENCE—--

Campus Ambassador
Infosec BD | Sep 2024 - Present | Remote, Dhaka, Bangladesh
- Advocated for cybersecurity awareness through events and educational initiatives.
- Fostered collaboration within the cybersecurity community.

Internship Trainee
Brainwave Matrix Solutions | Jun 2024 - Jul 2024 | Remote, Dhaka, Bangladesh
- Executed phishing detection and password strength evaluation projects.
- Conducted vulnerability assessments and developed security tools.
- GitHub Repository: https://github.com/0xSaikat/Brainwave_Matrix_Intern

KEY PROJECTS—---

PassCheck - A Strong Password Creating Tool
Duration: Jul 2024 - Present
- Developed a Python-based tool for assessing password strength using color-coded feedback and emoji-enhanced visuals.

- Addressed global password security issues, including exposures like rockyou.txt.
- GitHub Repository: https://github.com/0xSaikat/passcheck

TECHNICAL PROFICIENCY————————————————————————————————

Operating Systems: Kali Linux, Ubuntu, Windows
Programming Languages: Python, Java, C/C++, JavaScript
Web Technologies: Django, DRF, MVC, SQL
Recon Tools: Nmap, Osmedeus, Ffuf, Shodan, Wireshark, Subfinder, Katana
Penetration Testing Tools: Burp Suite, Hydra, Nessus, WPScan, SQLMap, Nikto, Metasploit, MobSF, Acunetix, Nuclei

ACHIEVED CVE ID'S————————————————————————————————

CVE-2024-49054: Identified a spoofing vulnerability in Microsoft Edge (Chromium-based), exposing users to phishing, credential harvesting, and malicious downloads.

HALL OF FAME & AWARDS————————————————————————————————

● Microsoft	● NASA	● RIPE NCC
● Apple	● UNESCO	● Sheffield University
● Google	● WHO	● Sutty
● NVIDIA	● European Union	● Drexel University
● Siemens	● USGS	● Turku University
● Intel	● U. S. NSF	● Texas University
● SAP	● U. S. ED	● MIT
● Adyen	● GEA Group	● Oxford University
● Zyxel	● U. S. TREAS	● Norkart AS
● Unilever	● Stanford University	● Utrecht University

CERTIFICATIONS————————————————————————————————

Certified AppSec Practitioner (CAP) - The SecOps Group
Cybersecurity Fundamentals - Palo Alto Networks
Foundations of Cybersecurity - Google
Ethical Hacking - LinkedIn Series
Introduction to Cybersecurity - Cisco

EDUCATION————————————————————————————————

Bachelor of Science (B.Sc.) in Computer Science and Engineering
Institution: Northern University of Business & Technology Khulna
Duration: Mar 2023 - Mar 2027

Higher Secondary Certificate (HSC) in Science
Institution: Cantonment College Jashore

Duration: Jun 2019 - Dec 2022
GPA: 4.92

Secondary School Certificate (SSC) in Science
Institution: Kashimari Ideal School and College
Duration: Jan 2016 - Jan 2019
GPA: 5.00
